Work Resumed In Pass Mines

With the penalty clause abolished and the working agreement of 1917-1918 in effect, as proposed by R. F. Green and recommended by the coal commissioner, W. H. Armstrong, granting the men an increase all round on the old agreement of 23 1/2 per cent., the miners of District 18 picked up their tools and went to work on Tuesday, after an idle period of more than two months.

The miners' locals on Saturday practically unanimously voted to adopt the proposed agreement. There are not full crews at work yet, and for a time the production will be seriously handicapped. During the past month or two large numbers of miners have moved to other parts from here and many of them have moved their families and effects with them, with no intention of returning to the mining fields. As a result it is now necessary that something be done to augment the mine labor supply.

It is stated that the operators have appealed to Commissioner Armstrong to do something to overcome the labor shortage.

Hundreds of cars are being rushed into this district, and every effort is being made by the mine companies to cope with the demand.

Acknowledges Contributions From Blairmore

The following letter has just been received by F. Wright, local secretary of the Returned Soldiers' Bureau:

St. Dunstan's,
Regent's Park, N.W. 1.
June 5th, 1917.

Dear Sir:

Many thanks for your letter containing a most welcome donation of Seventeen Pounds, Ten Shillings and Sixpence, the proceeds of a St. George's Tag Day organized in Blairmore, Alberta, Canada, under the auspices of the local Returned Veterans' Bureau, for which I enclose an official receipt.

We are, believe me, deeply appreciative of this very practical manifestation of sympathy with what we are doing here for the gallant men under our care, on whose behalf I hope you will accept yourself, and convey to your committee, an expression of most sincere and cordial thanks.

Yours faithfully,

Arundel Franson,

Chairman, Blinded Soldiers' and Sailors' Care Committee.

Frank Wright, Esq.,

Secretary-Treasurer.

Returned Soldiers' Bureau,

Blairmore, Alberta.

Yesterday evening Rev. Mr. Irwin, of this circuit, gave a very thrilling talk on national lines. He spoke of the large sums of money spent during the last election campaign, while many of the soldiers' wives who have sacrificed their husbands for the empire, are working hard to keep body and soul together. He gave a very touching incident where a friend after fighting with Oriental diseases in the British army for eight years secured his discharge, being very weak. He returned to London, and after walking in the ranks of the unemployed till starvation stared him in the face, was forced to clean crossings for a bare livelihood. He urged us Canadians to put forth better efforts to keep the home fires burning more brightly so that when the boys return home, they will find that we have indeed appreciated their sacrifices. — London correspondent to Lethbridge Herald.

Regulation of Our Menus Announced

Ottawa, June 28.—The food controller says that the following measures must be adopted at once:

Maximum production.
Largest possible consumption of perishable foodstuffs in order to liberate storable foods for transportation.
Adoption of war menus.
Prevention of food waste.
Utilization and organization of volunteer bodies to increase the food controller in increasing and conserving the food supplies.

British Have Not Lost a Gun Since April, 1915

London, July 5.—Since the beginning of the war the British have captured 117,776 prisoners, exclusive of natives taken prisoners in African campaigns, many of whom have been released, said Major-General F. B. Maurice, director of military operations at the war office today.

The British have captured 51,088 men, including Indian and native troops. These figures take in all theatres of war.

The British have captured 730 guns during the war and lost 133. Of the guns lost 37 were re-captured, and of the 96 remaining in the enemy hands 81 were lost by the British on the west front early in the war. The British have not lost a single gun on the west front since April, 1915, said the general.

Establishing a Precedent

It just came to our notice that the Sec-
retary-Treasurer of the Town of Blaimore
has been requested to act for the
municipality for prices on printing
matter. We have been asked to quote
prices on the same, but refuse to do so on
the grounds that the municipality has
no right to send out for anything that
can be had from one of its own ratepayers.
We can live without the petty
printing of the Town of Blaimore, but
the Town of Blaimore cannot exist with-
out taxes of which we are paying our
part.

In towns or cities where there are more
than one printing or newspaper office, it
is customary, and in fact obligatory on
the part of the town or city, that tenders
for printing or advertising be called for,
but never before have we heard of tenders
being invited from outside the limits
of a one-horse town, except where the
affairs were being administered by a set
of aldermen.

A fair idea of the material of which
Blaimore's aldermanic combination is
composed may be had from a brief report
published in these columns last week of a
recent council meeting. We sincerely
sympathize with certain members of the
council in the share of discomfort forced
upon them because of the inconsiderate
dispositions of fellow-aldermen, whose
eloquence is milt for the human ear to
recognize. Such a mode of adminis-
tration should call forth censure from the
ratepayers, for it will in time affect the
general well-being of the municipality.
Our report last week was given, to in-
clude was drawn the matter to the atten-
tion of the ratepayers. The report has
since been the subject of much discussion
and afforded a timely subject of discus-
sion from several pulpits on Sunday last, when
the town council of the Town of Blaimore
was severely censured and we were
embarrassed for having brought to the no-
tice of the public a condition which would
result in the arrest of members of the
aldermanic body.

Time

"Time—time is a hostating and
perplexed neutral. He has not yet
decided on which side he is going to
swing his terrible sceptre. For, at the
moment, that sceptre is striking both
sides with fearful havoc. The
hour will come when it will be swung
finally on one side or on the other."

"Time is the deadliest of all the
neutral powers. Let us see that we
enlist him among our allies. The
only way to win time is not to lose
time. You must not lose time in the
council chamber; you must not lose
time in the departments which carry
out the decrees of the Council; you
must not lose time in the field, in the
factory, or in the workshop."

"Whoever tardies when he ought
to be active—whether it is a states-
man, a soldier, a farmer, a worker, a
rich man with his money—is simply
helping the enemy to secure the aid
of the most powerful factor in the
war—time. Act, and act in time.
That is our appeal to you.—Lloyd
George.

Alberta Park Areas

"Equal to Any in Canada"

"See Alberta first" has a new appli-
cation, as P. C. H. Hervey, superin-
tendent of Dominion parks, uses it.
Mr. Hervey returned to Edmonton
from an inspection trip in the southern
part of the province, where he spent
some time in the Waterton Lakes
park, one of the beauty spots that
not many Edmontonians know about.
It is down at the extreme end of
Alberta and adjoining the United
States national park in Montana, being
reached most conveniently by motor
from Cardston, a distance of about
forty miles. The area of the park is
430 square miles, and the lakes which
form the central attraction of the re-
servation are in the southern portion,
in the close vicinity of the Joffre,
Kitchener, and Anderson mountains.
One of the special beauties of the
region is the waterfall at Lake Bertha,
which has a drop of 600 feet, four
times that of Niagara and a width of
100 feet.

Mr. Hervey describes the Waterton
park as a fisher's paradise, and every
week-end from twenty to thirty
motor cars go in from Cardston and
Lethbridge. A motor highway has
been constructed most of the way by
the provincial government, and the
federal parks branch has built a road-
way to connect with it into the park.
The scenery is said to be grand be-
cause of the mountains, the shades
of green on the forest slopes and the
vibrant color effects on the hillsides
being particularly fine. Develop-
ment work has been going on under
the parks branch for several years
and bridges and roads have
been built in the most readily accessi-
ble parts. The system under which
the park is maintained is the same as
that applying in the case of the Jasper
and Kootenai mountains parks, and
Mr. Hervey holds that Alberta has
reason to take pride in its possession
of this southern beauty spot.

Province of Alberta

Savings Certificates

The Deputy Provincial Treasurer,
Edmonton, reports that Provincial
Savings Certificates are meeting with
a splendid reception from the public.
Under this plan one may deposit his
Savings and be sure of receiving a
good interest rate with the solid secu-
rity of Government behind it. There
has been a steady flow of deposits
into the Provincial Treasury, the
amounts received from individual
investors varying from \$5.00 to sums
representing a modest fortune. The
average daily receipts continue to in-
crease in amount as time goes on,
evidencing the growing popularity
of the idea. As the savings Certi-
ficates Act was intended primarily for
the benefit of residents of the Pro-
vince of Alberta, deposits from outside
the Province were hardly looked for,
but considerable sums have been
received from neighboring Provinces.
The advantage of obtaining 5 per cent
and of being able to withdraw the
deposit on demand without any un-
necessary formality naturally appeals
to investors, especially when interest
is allowed for the full time the money
remains on deposit, however short it
may be. Another attractive feature
is the option of having interest com-
pounded half yearly, or if preferred,
of having it forwarded yearly or half
yearly.

'Be a Booster'

Do you know there's lots of people
settlin' round in every town,
Gawkin' like a broody chicken
Kookin' every good thing down?
Don't you be that kind of crouch.
Cause they ain't no use on earth,
You just be a booster rooster.
Crow and boost for all you're worth.
If your town needs boostin', boost 'er,
Don't hold back and wait to see
If some other fellow's willin'—
Sell right in, in this country's free.
No one's got a mortgage on it,
It's just yours as much as his;
If your town is shy on boosters,
You get in the boostin' biz.

If things just don't seem to suit you,
And the world seems kinder wrong,
That's the matter with a boostin'
Just to help the thing along.
'Cause if things should stop a goin'
We'd be in a sorry plight,
You just keep that horn a-blowin'—
Boost'er up with all your might.
If you know some fellow's fallin'
Just fergit 'em, cause you know
That's the name of a good goin' good point,
That's the ones you want to show.
'Cause your town's on the water,
They'll come back, 'a sayin' true,
Mebbe, too, they'll come back 'battered'
When some feller boosts for you.

Interesting Items From Pass Towns

(Copied from The Enterprise, June 30th, 1917)

Harry Lambirth came back from
China yesterday, and will take over
the meat market at Frank, which
has been run on air by a fellow
named Plack for a good many
years.

Dad Beach is thinking seriously
of changing his boarding house, be-
cause the women have begun to
pull his hair. Dad is really an
old-timer and still hopes to be good
for a century or so.

Temperance and moral reform
workers have been operating all
this week on the body of the late
T. Ede, trying to locate his diges-
tive organ, which if recovered will
be added to the already famous
Blaimore pipe band.

Alex. Morphey is thinking of
placing a new radiator on his Ford
car, as the old one has been rattling
since 1916. This car belongs to
the cat tribe, and has died un-
successfully sixteen hundred times
since the end of the great world
war in 1918.

Part of Joe Little's claim near
Gard Mountain was confiscated this
week by the secretary-treasurer be-
cause Joe could not pay taxes on
same. A friend of ours told us
yesterday that Joe has been a-
round from a knock administered by
himself which came back and hit
him in the noodle.

Never put off for tomorrow what
you can do today. Mary Gregory,
the popular housekeeper at the
Crowfoot hotel, refused to marry
an old lover today because he was
a believer in prohibition. Mary
kept Tom's company for over a
hundred years, and her friends
were hoping that marriage would
end her troubles—and theirs.

In rendering his decision in the
case of Eliza Porter, charged with
manslaughter, in that he ran over
and killed Eliza Stevenson at the
corner of Ford Avenue last month,
Judge Nicholl held that he could
not hold the car owner responsible,
for he failed to find in history any
record of an individual with any
sense owning an automobile.

One of the most attractive signs
in town can be seen today in front
of the Mayor's property, next to
the Union bank, which reads "Keep off
the grass," grass having grown
over the time-worn and dilapidated
sidewalk. People have been mak-
ing a practice of holding their
picnics on this patch, thinking it
was the much heard-of Blaimore
park.

The question of the "rum issue"
was revived last week, when the
rumor that the western provinces
would soon be obliged to wage war
on the province of Quebec was cir-
culated. We remember, something
over two centuries ago, that this
question was a live issue, brought
about because the shortage of rum
in the trenches was responsible for
Quebec being styled "The Slacker
Province."

Would it not be well for the
mayor and some other members of
the town council to show their in-
terest in the town by putting in
new sidewalks and otherwise try-
ing to clean up and beautify their
premises. They are generally
looked upon as pattern-builders,
but if our citizens did nothing more
than follow the examples at pre-
sent set before them, this little
town would not be fit for a dog to
live in.

A memorial service was held in
Holy End on Sunday last, in
memory of Pte. J. C. MacKenzie,
at one time editor of "Frankness
From Frank," who died during the
war in 1915 because of an empty wine
bottle hitting him a heavy blow.
Pte. MacKenzie was a strong ad-
vocate of the rum issue in the
trenches, and put up a strong fight
against Dr. Gray and others during
the last year of the great Allie-
German war.

Today is the 193rd anniversary

Caught in Passing

(By The Rocky Mountains Philosopher)

Ye mountains grand that overlook the plains,
Ye lofty peaks that rise to empyrean heights,
Tell ye me of countless ages past—
How the Almighty wrought in wondrous ways—
A leaf from Nature's BOOK to teach us
We should upward look and bow low at His feet.

A clean mind makes clean speech.

Look out for the man that has two eyes and only looks at you with one. He is not an optical illusion.

Dad says "One tooth in the jaw is better than two out." Dad's a philosopher.

I would like to see a boy riding a goat, but no man with a card in the sleeve of his coat.

I would like to see the mayor wear a necktie
And snarl the blasphemers right over the eyes.

There are some fellows you meet on the street that only throw up their shoulders when you ask them a fair question. What's the matter with them? St. Vitus dance?

We've got a job to do, my boys.

Over there in France,
We've got to lick the Kaiser's bunch
And on their necks to dance.

Each one must do his share, my boys,
East, west, and north and south;
Then let the slacker of Quebec
Enlist and shut his month.

A Boston steamer, which recently returned from a trip to the Mediterranean was obliged to pay \$30 per ton for 500 tons of coal to bring her from the Azores to Hampton Roads. The captain paid \$90 per ton for coal at Genoa, but he purchased only enough to carry the steamer to Fayal. Coal is higher than ever before known in Southern Europe.

The Kaiser invited the Devil to join in his dastardly revel; The Devil looked stern And said by return I could not descend to your level.

Mr. Finnegan and Misses Davis and Baird enjoyed a saddle-ride to Sentinel on Wednesday by trying to catch horses in the vicinity of Frank. A very pleasant time was had.

The National company's elevator at Retlaw was destroyed by fire this week, being the fourth elevator within an area of 100 miles that has been destroyed by fire within the past month.

A number of lads, who decided to spend Wednesday feasting on good things at Crows' Nest that cannot be so enjoyed at home, ran themselves into a ditch on the way home and now, besides having to patch up a few flesh wounds, must meet a fast repair bill.

A policeman was called to quell a street row caused by a tipsy man, who wanted to fight the policeman or any other man in town. In vain some of his friends tried to get him to go home quietly. He persisted in telling them all that he was a "brick" and would fight any man in the city. When the policeman arrived he still wanted to fight, saying:

"I am a brick."

"Yes," said the policeman, "but do you know what I was before I joined the force? I was a brick-layer."

The Russian Bear has reawakened and during the past week upwards of 10,000 Huns have been taken prisoners.

Judging by the large number of autos which have lately been obliged to enter "hospital," Blairmore affords a splendid opportunity for a vet.

It is said that lambs in Scotland are being given whiskey owing to the cold weather. It was bad enough when the lambs gambolled, but now that the other vice is added, no Puritan should eat lamb stew.

Billy Sunday recently remarked that if we turned "hell" upside down we should find "Made in Germany" stamped on the bottom. We'll take Billy's word—we don't! We tried to turn a beehive upside down once and got "stung."

One of the happiest creatures in Blairmore on Sunday night was Mrs. Saluti's cat, which became the fortunate recipient of a fish, the result of a whole day's fishing at Crows' Nest lake. The chief mourner was Mr. Gzowski, who lost his trophy after having packed it a distance of over ten miles.

Two boys, aged 10 and 15 years, appeared before Justices Beebe and Pinkney on Saturday morning last, charged with stealing copper wire, the property of the West Canadian Collieries. The boys pleaded guilty to the charge and admitted having sold the wire to local junk dealers. They were each given a six-months suspended sentence.

A rather serious fire occurred Sunday night in the Paden rooming house on State Street, which with its contents was practically demolished. Fire is supposed to have originated from a defective electric wire passing through some of the back rooms, which were practically gutted before the flames could break loose. The damage done would amount to about \$1000, which we understand is partly covered by insurance.

A large "bug," captured somewhere around Goat Mountain, was left at our office for safe-keeping this week, and has been attracting considerable attention. It measures about 14 inches in length and about two inches in circumference, and according to some of our Italian neighbors is slightly larger than the Italian pet bug. Someone suggested that because of its hopping movement it should make an excellent pacer for some of the ancient models of Ford cars.

Employees of the breweries at Fernie went on strike this week for a 15 per cent. increase in wages.

In a letter received from a friend a few days ago, it was stated that "The Coleman Bulletin had been barged from the mails." Must be because they didn't want the rag.

About forty local Odd-fellows journeyed to Pincher Creek by autos last night, where they attended the joint installation of officers of Cowley and Pincher Creek lodges.

T. M. Burnett, in his big new McLaughlin, took the contract on Thursday evening to finish about a thousand gophers which eight Fords attempted to kill on the road between Bellevue and Pincher Creek.

According to London, England, newspapers the Government's reduction in the annual output of beer to 10,000,000 barrels, decreed last February, proved too drastic. There has been a deficient supply in the munitions areas during the recent hot weather, which condition, added to the prospective difficulty in the rural districts at harvest time, has influenced the government to allow an immediate increase of 38 per cent. in the bar-lease of beer.

On Sunday evening last a young man called on his best girl. After they had talked until they could not think of any more to say, he declared his intention of kissing her. She was very indignant, and said she would tell her father if he did. Remembering the old saying that "Faint heart never won fair lady," the young man dared, and succeeded in planting a fairly respectable kiss somewhere behind her ear. The young woman arose hastily and walked into the other room.

"Pa," she said, "Mr. — wants to see your new gun."

"Alright," said the old man, delighted with the chance of showing off his new gun. Taking it from the rack, he stepped into the drawing room. The young man broke four windows in getting out, and when last seen was still running bareheaded towards Frank.

Frank Happenings

A. I. Blais and family spent the holiday fishing at South Fork.
